

# WILLY LAURENT BRENKMAN

## IT Business Analyst | Process & AI Automation

Jakarta, Indonesia | +62 882-8901-5338 | willylaurentb1@gmail.com | willybrenkman.my.id | linkedin.com/in/willy-laurent-brenkman

### PROFESSIONAL SUMMARY

IT Business Analyst with 4+ years in IT across business analysis, quality assurance and development, who maps business processes and builds the AI automation for them. Authored RFI/RFC requirement documentation and led QA for Telkomsel national-scale programs (a 159M-user billing & charging upgrade and a 10.5M+ user IndiHome migration), bridging business, engineering and QA teams. Independently scopes and delivers systems for clients, has shipped 3 SaaS products from requirements to production, and designs AI assistant solutions that connect Telegram, Google Calendar, Notion, Meta Ads and Instagram with human-approval steps. Hands-on with SQL, Power BI, Jira and UAT. Open to hybrid or remote roles.

### CORE COMPETENCIES

**Business Analysis:** Requirement Gathering, RFI/RFC & Change Requests, BRD Support, Scope & Process Definition, Stakeholder Coordination, Risk Identification

**Process & AI Automation:** Process Automation Design, AI Agents (Hermes Agent), n8n Workflow Automation, LLM Tools (Claude, ChatGPT, Cursor), Prompt Engineering, Human-Approval Workflow Design

**Integrations:** REST APIs, Webhooks, OAuth (Google Workspace, Meta), Telegram Bot API, Notion API

**Quality & Data:** Test Case Design, UAT, Bug Tracking (Jira), Agile/Scrum, SQL, MySQL, Power BI, Google Analytics

**Technical:** Next.js/React, Node.js, PostgreSQL/Supabase, Git/GitHub, VPS & Docker Deployment

### PROFESSIONAL EXPERIENCE

#### Independent Business Analyst & Automation Developer

2025 to Present

*Rapi Digital Nusantara (Freelance, Part-Time)*

- Gathered requirements, defined scope and contract terms, ran QA/UAT and handed over with documentation for a company-profile website with custom CMS for PT Kreasimuda Dwitama, deployed to a VPS; also built the company website for PT BWJ Agriculture Global Indonesia.
- Scoped a two-application system for Roseli Beauty Studio (academy LMS and salon POS with booking, staff commission and P&L dashboard) and structured delivery into phased milestones.
- Designed a productized AI assistant service for small-business owners (Telegram, Google Calendar, Notion, Meta Ads and Instagram), including scope limits, a deployment runbook, pricing and human-approval steps before any ad or content goes live.
- Built and self-hosted an AI assistant agent (Hermes Agent) on a VPS, integrated with Google Calendar, Notion, Meta Ads and Instagram, with automated scheduled briefings and reports.
- Built and shipped 3 SaaS products (NIKAH RAPI, Alur, LUNASKAN) from requirements to production, including follow-up automation, automated reminders and access-control security reviews (RLS).
- Ran pre-handover code and security audits; client site reached PageSpeed 93 (mobile) / 99 (desktop) with 100 Accessibility and SEO scores.

#### Sales Development Representative

Jul 2025 to Jan 2026

*ChatPlusAI (Full-Time)*

- Analyzed CRM pipeline and lead-quality data to improve conversion for an AI-powered omnichannel customer-service SaaS.
- Prepared monthly performance reports on lead generation, meetings and sales outcomes for stakeholders.

#### Software QA Specialist

Aug 2024 to Jul 2025

*Telkomsel (via Sigmapipta Caraka)*

- Conducted UI testing after system updates; replicated and documented bugs for 99% Usahaku and DigiposAja.

#### Software QA Team Lead

May 2023 to Aug 2024

*Telkomsel (via Sigmapipta Caraka)*

- Authored RFI/RFC documentation bridging QA, engineering and business stakeholders: gathering requirements, identifying risks and formalizing change requests.
- Led QA for the FMC IndiHome Migration (10.5M+ users) and the Billing & Charging System Upgrade (159M users).
